SUBJECT INDEX

Adenocortical carcinoma, Favorable response of metastatic — to adriamycin and cisplatin (EAP) chemotherapy. Report of two cases, 345

Adenoma, Hyalizing trabecular — of the thyroid. Report of two cases, with cytologic, immunohistochemical and ultrastructural studies, 274

Adenosine deaminase, Biologic relevance of elevated red cell — activity in myelodysplastic syndromes and paroxysmal hemoglobulina, 370

Adriamycin, Favorable response of metastatic adenocortical carcinoma to etoposide, — and cisplatin (EAP) chemotherapy. Report of two cases, 345

Alpha-interferon, Ultrastructural modifications in one case of hairy cell leukemia during — therapy, 190

Angiomyolipoma, — in the transplanted kidney. A case report, 52

BCNU, Combination of 5-fluorouracil, imidazole carboxamide, — and prednisolone (FIB-P) as a salvage chemotherapy in heavily pretreated breast cancer patients, 26

Biliary cirrhosis, Adjuvant therapy for primary breast cancer in a female patient affected by autoimmune liver disease: does it cure breast cancer and primary biliary cirrhosis?, 395

Bladder, — leicmyoma in pregnancy, 414

——, Mixed signet-ring and transitional cell carcinoma of the —, 216

——, Small cell carcinoma of the urinary —. Report of two cases and report of the literature, 409

Bleomycin, Epirubicin, methotrexate and — (EMB) in the treatment cancer of the head and neck, 330

Bone marrow, — histopathology and prognosis in malignant lymphomas, 176

——, Adenocarcinoma of unknown primary site with — and orbital metastases suggestive of a prostatic origin, 63

Brain metastases, Single — from kidney tumors. Clinico-pathologic considerations on a series of 29 cases, 392

——, Single — metastasis from breast cancer: remarks on clinical pattern and treatment, 115

Breast self examination. A cross sectional survey on — practice, utilization of breast professional examination, mammography and associated factors in Romagna, Italy, 98

Breast, Accelerated hyperfractionation of radiotherapy for rapidly growing inoperable — cancer unresponsive to chemotherapy, 326

——, Acute myelocytic leukemia and chronic myelomonocytic leukemia simultaneously with resectable — cancer: a report of two cases, 356

——, Adjuvant therapy for primary — cancer in a female patient affected by autoimmune liver disease: does it cure — cancer and primary biliary cirrhosis?, 395

——, Bilateral — involvement in a 71-year-old white man with lambda light chain disease. Regression after a new chemotherapy combination. A case report, 35

——, Clinical usefulness of estrogen receptor immunohistochemistry in human — cancer, 287

——, Combination of 5-fluorouracil, imidazole, carboxamide, BCNU and prednisone (FIB-P) as a salvage chemotherapy in heavily pretreated breast cancer patients, 26

——, Deflazocort and fluoximesterone in advanced, pretreated — cancer, 266

——, Different assays for HER-2/neu evaluation in — cancer, 106

——, Histopathologic classification of — cancer in Sweden and Italy: a comparison between two pathologists, 247

Breast, Intracystic papillary carcinoma of the male —. A case report (Histochemical, immunohistochemical and ultrastructural study), 37

——, Osteogenic sarcoma of the —, A case report, 43

——, Risk of infiltrating — cancer subsequent to lobular carcinoma in situ, 244

——, Single brain metastasis from — cancer: remarks on clinical pattern and treatment, 115

——, Teleangiectatic sarcomatoid carcinoma of the —, 283

——, Combination of 5-fluorouracil, imidazole, carboxamide, BCNU and prednisone (FIB-P) as a salvage chemotherapy in heavily pretreated breast cancer patients, 26

——, Treatment of — cancer in elderly women: retrospective analysis of 111 wide lumpectomies performed in a day hospital regimen between 1982 and 1988, 111

——, Weekly doxorubicin chemotherapy for — cancer in pregnancy. A case report, 249

——, Weekly first-line chemotherapy of metastatic — cancer with cyclophosphamide and epirubicin, 336

——, Estimated incidence and prevalence of female — cancer in Italian regions, 13

——, The cost of hospital stay for operable breast cancer, 359

Breslow thickness, — of cutaneous malignant melanoma in Ravenna (northern Italy) 1981-1990, 94

Budd-Chiari syndrome, — complicating lung carcinoma of the right inferior lobe: a case report, 147

Castration, Effect of . . . and testosterone replacement on pancreatic carcinogenesis in Syrian hamster, 75

Cervical cancer, Spontaneous screening for — and diagnostic histories of incident cases, 239

——, Quality control for colposcopy in the Florence screening program for —, 291

Cervicography, Evaluation of the sensitivity of — in a consecutive colposcopic series, 211

Cervix, Role of immune response in the prognosis of carcinoma of the uterine —: can in vitro analysis provide a better framework for more effective management? 87

Chromosome, — changes in renal cell carcinoma, 250

——, Numerical — aberrations in fibrothecoma, 140

Circadian variability, Phase I study of FUDR continuous infusion with — in advanced cancer patients, 341

Cis-platinum, Cyclophosphamide, epirubicin, etoposide,—(CEVP) in combination with radiotherapy: evaluation of a protocol adopted for 6 years in 148 cases of small cell lung cancer, 333

Cisplatin, Favorable response of metastatic adenocortical carcinoma to etoposide, adriamycin and — chemotherapy. Report of two cases, 345

——, Neoadjuvant chemotherapy with —, epirubicin and *KP*-16 for stage IIIA-IIIB non small cell lung cancer: a pilot study, 383

——, Peripheral neurotoxicity following high-dose — with glutathione: clinical and neurophysiological assessment, 253

Colon, Colonic metastatis of a renal carcinoma, 219

Colorectal adenocarcinoma, Endobronchial metastases in —, 270

Colorectal cancer, High dose alpha-2b interferon+folinic acid in the modulation of 5-fluorouracil. A phase II study in advanced — with evidence of an unfavorable cost/benefit ratio, 32

——, Reversal of resistance to doxifluridine and fluorouracil in metastatic —: the role of high-dose folinic acid, 258

Colorectal carcinoma, Neuroimmunotherapy with subcutaneous low-dose interleukin-2 and the pineal hormone melatonin as a second line treatment in metastatic —, 383

Colposcopy, Evaluation of the sensitivity of cervicography in a consecutive colposcopic series, 211

——, Quality control for — in the Florence screening program for cervical cancer, 291

Cyclophosphamide, —, epirubicin, etoposide, cisplatinum (CE*K*P) in combination with radiotherapy: evaluation of a protocol adopted for 6 years in 148 cases in small cell lung cancer, 333

——, Weekly first-line chemotherapy of metastatic breast cancer with — and epirubicin, 336

Cyclosporine-A, Morphogenesis of epithelial lesions in the lymphoid patches of Fischer 344 rats during — induced prolonged immunosuppression, 366

Deflazacort, — and fluoximesterone in advanced, pretreated breast cancer, 266
Dermatofibrosarcoma, — protuberans metastatic to the lung. A case report, 49
Diet, Dietary habits, internal migration and social class in a sample of a northern Italian population, 235
Doxifluridine, Reversal of resistance to — and fluorouracil in metastatic colorectal cancer: the role of high-dose folinic acid, 258
Doxorubicin, Weekly — chemotherapy for breast cancer in pregnancy, 349

Electron microscopy, Morphologic analysis of serous effusion cells by scanning —, 10
Endobronchial metastases, — in colorectal adenocarcinoma, 270
Endometrial cancer, Adjuvant radiotherapy of the pelvis with or without reduced glutathione: a randomized trial in patients operated for —, 374
Endometrial carcinoma, Effect of medroxyprogesterone acetate on immunohistochemical expression of stradiol in —, 172
Epidemiology, A cross sectional survey on breast self examination practice, utilization of breast professional examination, mammography and associated factors in Romagna, Italy, 98
——, Cancer mortality in Italy, 1988, 69
——, Descriptive — of stomach cancer in Ragusa, Sicily 1981-1988, 363
——, Determinantes of non-attendance to mammographic screening. Analysis of a population sample of the screening program in the district of Florence, 22
——, Dietary habits, internal migration and social class of a northern Italian population, 235
——, Estimated incidence and prevalence of female breast cancer in Italian regions, 13
——, Quality control for colposcopy in the Florence screening program for cervical cancer, 291
——, Spontaneous screening for cervical cancer and diagnostic histories of incident cases, 239
Epidemoid cancer, Epirubicin methotrexate and bleomycin (EMB) in the treatment of recurrent — of the head and neck, 330
Epirubicin, —, methotrexate and bleomycin (EMB) in the treatment of recurrent epidermoid cancer of the head and neck, 330
——, cyclophosphamide, —, etoposide, cisplatinum (CEVP) in combination with radiotherapy: evaluation of a protocol adopted for 6 years in 148 cases in small cell lung cancer, 333
——, Neoadjuvant chemotherapy with cisplatin, — and VP-16 for stage IIIA-IIIB non small cell lung cancer: a pilot study, 377
——, Weekly first-line chemotherapy of metastatic breast cancer with cyclophosphamide and —, 336
Estrogen receptor, Clinical usefulness of — immunochemistry in human breast cancer, 287
Etoposide, Cyclophosphamide, epirubicin, —, cis-platinum (CEVP) in combination with radiotherapy: evaluation of a protocol adopted for 6 years in 146 cases of small cell lung cancer, 333
Etoposide, Favorable reports of metastatic adenocortical carcinoma to —, adriamycin and cisplatin (EAP) chemotherapy. Report of two cases, 345

Fibrothecoma, Numerical chromosome aberrations in —, 140
Fine needel aspiration, The role of — cytology in the diagnosis of the head and neck excluding the thyroid and salivary glands, 134
5-fluorouracil, Combination of —, imidazole carboxamide, BCNU and prednisolone (FIB-P) as a salvage chemotherapy in heavily pretreated breast cancer patients, 26
——, High dose alpha-2b interferon+folinic acid in the modulation of —. A phase II study in advanced colorectal cancer with evidence of an unfavorable cost/benefit ratio, 32
Flourouracil, Reversal of resistance to doxifluridine and — in metastatic colorectal cancer: the role of high-dose folinic acid, 258
Fluoximesterone, Deflazacort and — in advanced, pretreated breast cancer, 266
Folinic acid, High dose alpha-2b interferon+ — in the modulation of 5-fluorouracil. A phase II study in advanced cancer with evidence of an unfavorable cost/benefit ratio, 32
Folinic acid, Reversal of resistance to doxifluridine and fluorouracil in metastatic colorectal cancer: the role of high-dose —, 258
FUDR, Phase I study of — continuous infusion with circadian variability in advanced cancer patients, 341

Gallbladder, Small cell carcinoma of the —: clinical course and response to chemotherapy, 207
Gastric cancer, Histology as a prognostic factor in early —, 181
Gastrointestinal tract, Adjuvant chemotherapy for cancer of —: a critical review, 228
Gemfibrosil, Hypertriglyceridemia during long-term interferon-alpha therapy: efficacy of diet and — treatmente. A case report, 353
Glutathione, Adjuvant radiotherapy of the pelvis with or without reduced —: a randomized trial in patients operated for endometrial cancer, 374
——, Peripheral neurotoxicity following high-dose cisplatin with —: clinical and neurophysiological assessment, 253

Hairy cell leukemia, Ultrastructural modifications in one case of — during alpha-interferon therapy, 190
HER-2/neu Different assays for — evaluation in breast cancer, 106
Head and neck, Altered fractionation schedules in radiotherapy of — cancer. A review, 311
——, Epirubicin, methotrexate and bleomycin (EMB) in the treatment of recurrent epidermoid cancer of the —, 330
——, The role of fine needle aspiration cytology in the diagnosis of lesions of the — excluding the thyroid and salivary glands, 134
Hodgkin's disease, Primary — of the stomach. A case report, 280
——, Case report: a patient with — after treatment for testicular cancer, 214
Hormone, Plasma steroid transport in subjects with tumors of hormonal target organs: a review, 155
Hypertriglyceridemia, — during long-term interferon-alpha therapy: efficacy of diet and gemfibrosil treatment. A case report, 353
Hyperthermia, — in clinical practice, preliminary results and current problems in the treatment of 21 patients, 262

Imidazole carboxamide, Combination of 5-fluorouracil, —, BCNU and prednisolone (FIB-P) as a salvage chemotherapy in heavily pretreated breast cancer patients, 26
Immunosuppression, Morphogenesis of epithelial lesions in the lymphoid patches of Fischer 344 rats during cyclosporine-A-induced prolonged —, 366
Integrin beta chain, Production and characterization of two monoclonal antibodies directed against the —, 1
Interferon, High dose alpha-2b — + folinic acid in the modulation of 5-fluorouracil. A phase II study in advanced colorectal cancer with evidence of an unfavorable cost/benefit ratio, 32
Interferon-alpha, Hypertriglyceridemia during long-term — therapy: efficacy of diet and gemfibrosil treatment. A case report, 353
Interleukin-2, Intracavitary administration of — as palliative therapy for neoplastic effusions, 118
——, Neuroimmunochemotherapy with subcutaneous low-dose — and the pineal hormone melatonin as a second line treatment in metastatic colorectal carcinoma, 383

Kaposi's sarcoma, — on a lymphadematous arm following radical mastectomy, 407
Kidney, Angiomyolipoma in the transplanted — A case report, 52
——, Single brain metastases from—tumors. Clinico-pathological considerations on a series of 29 cases, 392

Lactone bryostatin 1, The effects of the macrocyclic — on leukemic cells in vitro, 167
Lambda, light chain disease, Bilateral breast involvement in a 71-year-old man with —. Regression after a new chemotherapy combination. A case report, 35

Leukemia, Acute myelocytic — and chronic myelomonocytic — simultaneously with resectable cancer: a report of two cases, 356
——. Simultaneous occurrence of monoclonal gammopathy and acute secondary — with overexpression of P-glycoprotein, 403
Leukemic cells, The effects of the macrocyclic lactone bryostatin-1 on — in vitro, 167
Lambda light chain disease, Bilateral breast involvement in a 71-year-old man with —. Regression after a new chemotherapy combination. A case report, 35
Liver, Adjuvant therapy for primary breast cancer in a female patient affected by autoimmune — disease: does it cure breast cancer and primary biliary cirrhosiss, 395
——, Nodular lesions of the — in multiple myeloma: a role for cytoadhesion molecules?, 300
——, Primary mucoepidermoid carcinoma of the —, 65
Lonidamine, Phase II study with — in the treatment of hormone-refractory prostatic cancer patients, 137
LoVo MDR, P-glycoprotein but not topoisomerase II and glutathione-S-transferase-pi accounts for enhanced intracellular drug-resistance in — human cell lines, 159
Lumpectomy, Treatment of breast cancer in elderly women: retrospective analysis of 111 wide lumpectomies performed in a day hospital regimen between 1982 and 1988, 111
Lung, Budd-Chiari syndrome complicating — carcinoma of the right inferior lobe: a case report, 147
——, Dermatofibrosarcoma protuberans metastatic to the —. A case report, 49
——, Limited small cell lung cancer of the — treated with combination chemotherapy and radiotherapy: a retrospective analysis, 130
——, Unfavorable experience with hypofractionated radiotherapy in unresectable — cancer, 305
——, Well-differentiated neuroendocrine carcinoma of the —: a clinicopathologic and ultrastructural study of 10 cases, 121
Lymphadenoma, Kaposi's sarcoma on a lymphadematous arm following radical mastectomy, 407
Lymphoid patches, Morphogenesis of epithelial lesions in the — of Fischer 344 rats during cyclosporine-A-induced prolonged immunosuppression, 366
Lymphoma, Primary spinal epidural non-Hodgkin's —: the contribution of magnetic resonance imaging (NMR), therapeutic approach and review of the literature, 397
Lymphomas, Bone marrow histopathology and prognosis in malignant —, 176
Lymphoproliferative disorders, Pathogenesis of human reactive-appearing « non-monomorphous » malignant —: a hypothesis, 221

Magnetic resonance imaging, Primary spinal epidural non-Hodgkin's lymphoma: the contribution of magnetic imaging, therapeutic approach and review of the literature, 397
Mammary cysts, Cationic content in multiple —, 198
Mammographic screening, Determinants of non-attendance to —. Analysis of a population sample of the screening program in the district of Florence, 22
Mammography, A cross sectional survey on breast self examination practice, utilization of breast professional examination, — and associated factors in Romagna, Italy, 98
Medroxyprogesterone, Effect of — acetate on immunihistochemical expression of estradiol in endometrial carcinoma, 172
Melanoma, Breslow thickness of cutaneous malignant — in Ravenna (northern Italy) 1981-1990, 94
——, Heterogeneity and phenotypic instability of chemotherapeutic and immunologic sensitivity in murine and human — cell clones, 5
——, Spontaneous rupture of spleen in a patient with splenic metastasis of —. A case report, 47
Melatonin, Neuroimmunotherapy with subcutaneous low-dose interleukin-2 and the pineal hormone — as a second line treatment in metastatic colorectal carcinoma, 383
Mesothelioma, Mitomycin C and vindesine: an ineffective combination chemotherapy in the treatment of malignant pleural —, 380
Methotrexate, Epirubicin, — and blemycin (EMB) in the treatment of recurrent epidermoid cancer of the head and neck, 330
Mitomycin C, — and vindesine: an ineffective combination chemotherapy in the treatment of malignant pleural mesothelioma, 380
Monoclonal antibodies, Production and characterization of two — directed against the integrin beta chain, 1
Monoclonal gammopathy, Simultaneous occurrence of — and acute secondary leukemia with overexpression of P-glycoprotein, 403
Myelodysplastic syndromes, Biological relevance of elevated red cell adenosine deaminase activity in — and paroxymal nocturnal hemaglobinuria, 370
Myeloid leukemia, Minimally differentiated acute —: a morphologic, cytochemical and ultrastructural study, 185
Myeloma, Nodular lesions of the liver in multiple —: a role for cytoadhesion molecules?, 300
Myelotic leukemia, Acute — and chronic myelomonocytic leukemia simultaneously with resectable breast cancer: a report of two cases, 356
Myositis ossificants. Malignant —. A case report, 55

Neuraxis, Radiation-induced schwannomas of the —, 143
Neurotoxicity, Peripheral — following high-dose cisplatin with glutathione: clinical and neurophysiological assessment, 253
Non small lung cancer, Neoadjuvant chemotherapy with cisplatin, epirubicin and VP-16 for stage IIIA-IIIB —: a pilot study, 377

Osteogenic sarcoma, — of the breast. A case report, 43
Osteosarcoma, Adrenal gland metastases in osteogenic —, A radiological case report, 417
——, — of the extremity metastatic at presentation: results achieved in 26 patients treated with combined therapy (primary chemotherapy followed by simultaneous resection of the primary and metastatic lesions), 200

P-glycoprotein, — but not topoisomerase II and glutathione-S transferase-pi accounts for enhanced intracellular drug-resistance in LoVo MDR human cell lines, 159
——, Simultaneous occurrence of monoclonal gammopathy and acute secondary leukemia with overexpression of —, 403
Pancreatic cancer, Effect of castration and testosterone replacement on pancreatic carcinogenesis in Syrian hamsters, 75
Papillary carcinoma, Intracystic — of the male breast. A case report. (Histochemical, immunohistochemical and ultrastructural study, 37
Pelvis, Adjuvant radiotherapy of the — with or without reduced glutathione: a randomized trial in patients operated for endometrial cancer 374
Phenocromocytoma, Concurrent adrenal — and papillary adenocarcinoma of the thyroid in a 20-year-old man, 59
Phylloids, A case of malignant — tumor with muscular and fatty differentiation, 351
Plasma, — steroid transport in subjects with tumors of hormonal target organs: a review, 155
Prednisolone, Combination of 5-fluorouracil, imidazole carboxamide, BCNU and — (FIB-P) as a salvage chemotherapy in heavily pretreated breast cancer patients, 26
Pregnancy, Bladder leiomyoma in —, 414
——, Weekly doxorubicin chemotherapy for breast cancer in — 349
Prostate, Adenocarcinoma of unknown primary site with bone marrow and orbital metastases suggestive of a prostatic origin, 63
Prostatic cancer, Phase II study with lonidamine in the treatment of hormone-refractory — patients, 137

Quality of life, Consensus development conference: assessment of the — in cancer clinical trials, 151

Radiation, — induced shwannomas of the neuraxis. Report of three cases, 143
Radiotherapy, Accelerated hyperfractionation of — for rapidly growing inoperable breast cancer unresponsive to chemotherapy, 326
——, Adjuvant radiotherapy of the pelvis with or without reduced glutathione: a randomized trial in patients operated for endometrial cancer, 374
——, Altered fractionation schedules in — of head and neck cancer. A review, 311
——, Cyclophosphamide, epirubicin, etoposide, cis-platinum (CEVP) in combination with —: evaluation of a protocol adopted for 6 years in 148 cases of small cell lung cancer, 333
——, Limited small cell lung cancer of the lung treated with combination chemotherapy and —: a retrospective analysis, 130
——, Surgical and adjuvant radiation therapy of resectable retroperitoneal soft tissue sarcomas in adults, 388
——, Unfavorable experience with hypofractionated — in unresectable lung cancer, 305
Renal carcinoma, Colonic metastatis of a —, 219
Renal cell carcinoma, Chromosome changes in —, 250

Salivary glands, The role of fine needle aspiration cytology in the diagnosis of lesions of the head and neck excluding the thyroid and —, 134
Signet ring, Mixed — and transitional cell carcinoma of the bladder, 216
Small cell carcinoma, — of the gallbladder: clinical course and response to chemotherapy, 207
——,—— of the urinary bladder. Report of two cases and review of the literature, 409
Small cell lung cancer, Cyclophosphamide, epirubicin, etoposide, cis-platinum (CEVP) in combination with radiotherapy: evaluation of a protocol adopted for 6 years in 148 cases of —, 333
